MEMORANDUM FOR THE RECORD

SUBJECT: DoD Questions on DCI Article "Regroup to Check the Soviet Threat"

1. Dr. Darnell Whitt, Intelligence Adviser to Under Secretary of Defense Ikle, called me to ask who was the author of the DCI's article in the 22 April Wall Street Journal. I asked him what his interest was and how I might help. He explained that the article's call for changes in our foreign-military-sales laws and for changes in our military procurement policies had generated interest in DoD. He wants to get details of the thoughts underlying this suggestion and specific changes that are recommended. I told him I'd pursue his request and get back to him. He said he was in no big rush; he suggested I get back to him Monday PM, 2 May.
